
Oil and Gas Industry Veterans Mario Dominic and Louis Phillips Join Altran Solutions

Cranbury, NJ – September 10, 2010. [Altran Solutions](#), a comprehensive engineering consulting firm and ENR Top 500 Design Firm announced today that Resource: PM management team, Mario Dominic and Louis Phillips have joined the company.

“It is with great pleasure that I announce the addition of the Resource: PM Management team of Mario Dominic and Louis Phillips to Altran Solutions” said **Tom Foley**, CEO and President of Altran Solutions. “Resource: PM has been a valued subcontractor and a key niche supplier in the Oil and Gas marketplace over the past several years, and the addition of their experience and relationships will advance our efforts in this key market area. Their decision to bring the business of Resource: PM into the overall offering of Altran Solutions also speaks to our growing reputation as a valued engineering supplier.”

Mario Dominic, a 27-year industry veteran and owner at Resource: PM brings experience in project design, project management and project construction experience mainly in the Oil and Gas industry. Mr. Dominic’s experience ranges from cost/budget management; change order management; planning, contract management, construction supervision, quality and material management, as well as safety supervision. He has designed unit plot plans, isometrics, process flow diagrams, piping and instrumentation diagrams, process system, utility systems and fire suppression systems and has worked with several refineries including ConocoPhillips, Valero, Tosco and Sunoco. Mr. Dominic is a graduate of the Delaware Technical College.

Louis Phillips, a 34-year industry veteran brings experience in facilities engineering, process design, laboratory facility planning, feasibility studies and cost estimation docks and piers. He also has experience in pilot plant design and construction, contract administration, instrumentation and control, capital projects administration and decommissioning and demolition. Most recent positions include Director of engineering for Resource: PM, Senior Process Design Consultant for Sunoco, Inc. in Philadelphia and Process Design Engineer for ICI Americas in Wilmington, Delaware. Mr. Phillips has authored an article on “Decommissioning Process Plant Facilities” in Chemical Engineering Progress (CEP) magazine. He earned a M.S. in chemical engineering from Villanova University and a B.S. in chemical engineering from the New Jersey Institute of Technology. He is a registered Professional Engineer in Pennsylvania, New Jersey, and Delaware.

Both will be based out of the Cherry Hill, NJ office.

About Altran Solutions: Altran Solutions is a **comprehensive engineering consulting firm** that leverages innovative technologies and industry knowledge to help companies enhance their business and effectively manage their assets. Our goal is to seek out answers to our customer's critical engineering challenges and provide them with a framework that encourages innovative thinking, promotes operational efficiencies, and delivers results to their bottom lines. Our growth oriented team of professionals works closely with **utilities, power generation & delivery companies** as well as **commercial and industrial firms**. Altran Solutions was recognized in 2009 and 2010 by Engineering News Records as part of the **Top ENR 500 Design firms**. Altran Solutions is a wholly-owned division of the [Altran Group](#) (Altran Technologies), the European leader in Innovation and Technology consulting. In 2009, the Group’s revenue reached \$2 billion with 17,500 professionals serving clients and improving efficiencies in 20 countries.
